## CROP OUTLOOK IN THE PRAIRIE STATES EXCELLENT

D. M. Newton, traveling passenger agent of the Oregon Short Line and Union Pacific, with headquarters in Ogden, was in the city yesterday. He had just returned from Omaha, having made the trip east from Huntington, Oregon, in charge of a party of 40 Italian reservists.

On his way back, the Ogden man, who was formerly a Kansan, took careful notice of crop conditions through Nebraska and Wyoming and reports them, with the exception of the corn in some sections of Nebraska, to be of the "bumper" order. Owing to the excessive rainfall and consequent coolness of the atmosphere, he says, the Nebraska corn harvest will be late, with a loss from frost probable.

The Ogden man found the members of the party very interesting, all being able to speak English fluently and eager to learn all that was possible of the country. On their cross-continent trip they are being chaperoned by Mr. and Mrs. William W. Chung of the International Chinese-American association of Washington, D. C.

The claim of Mrs. Beatrice Redfield for damages, for alleged personal injuries, in the sum of \$7,750, was considered and referred to the city attorney by the city board this morning.

Mrs. Redfield contends that on August 4 of this year, at about 9 o'clock in the morning, she stepped into an electric pole hole on Third street, between Washington and Wilson avenues, which threw her to the ground and caused her to wrench her right foot and heel, sprain her ankle, and dislocate a vertebra. She states that her petition for redress that the city was careless in permitting a pole-hole to be made on the thoroughfare without having it properly safeguarded with lights and barriers, claiming that neither was there.

Commissioner W. G. Child reported that, after making a thorough inspection of the Riverdale road, he was of the opinion that tarvia should not be used on the surface this season. His recommendation was adopted.

The reason for the recommendation was that there is ample water supply to sprinkle the road the balance of the season, and it was considered best to surface with tarvia next season.

## CARRANZA MEN DO NO RAIDING General Commands All Officers on Frontier Line to Maintain Strict Neu- trality.

Washington, Sept. 7.—General Carranza and his commanding generals on the Mexican border telegraphed the Carranza agency here today denying that not any of their soldiers have taken any part in raids in Texas or attacks upon American troops across the Rio Grande.

The report wired by General Carranza said:

The fact that some of the disturbers may be wearing uniforms similar to those of our soldiers does not indicate any connection between our army and the above mentioned movement, as the clothes, hats and shoes used by our troops are the same as those used on the other side of the Rio Grande, as all of our equipment has been bought in the United States.

Strict Neutrality Ordered.  
"I have ordered the commanders on the frontier line to maintain strict neutrality in order to avoid complications. I have withdrawn our detachments from many places in order to avert any international difficulties."

Reports of fighting between the Carranza and Villa forces were given in detail despatches to the Carranza agency, asserting that Obregon, Trevino and others have captured Sallitillo, Paredon, Icamole, Monclova, and small towns in many places in order to prepare to join with other Carranza generals "to make a combined assault on Torreon and final investment of Chihuahua."

## WAR REPORTS CAUSE PANIC Immense Crowds Gather in Petrograd Streets When Alleged Capture of Riga Is Reported.

Berlin, Sept. 7.—By wireless to Sayville.—The Overseas News Agency reports that a panic was caused in Petrograd yesterday by rumors that the Russian Baltic port of Riga had been captured.

"The Lokal Anzeiger publishes private telegrams from Stockholm," says the news agency, "stating that the Russian capital was thrown into confusion by reports that the positions on the Drvina line had been captured; that Russian armies had been destroyed; that Riga had been taken and that the German advance upon the capital would be no longer hampered. Immense crowds gathered in front of the newspaper offices. There was great excitement and many arrests were made."

Toward evening the newspapers published extra editions containing official denials of these rumors and saying that the Russian defensive positions were still intact. However, the spread of panic at the capital and reports of Emperor Nicholas' trip to the front are only a pretense to veil the removal of the emperor's residence to the interior."

The contest which developed the most sensational court play since the famous meeting between McLoughlin and Brookes on the same strip of turf a year ago, was an exhibition of both racquet skill and court generalship. Another factor, and the winning one, was that of endurance, and in this respect the victor had a decided advantage over the vanquished, especially in the long drawn out fourth set.

Johnston's ability to keep McLoughlin in deep or midcourt most of the time while he used his short ground strokes and backhand cross court slashes gave him the winning points in crucial rallies.

## MEXICAN INFLUX IS SUSPICIOUS

Authorities Puzzled Over  
Large Number Crossing  
Line Into Brownsville.

Brownsville, Texas, Sept. 7.—The unusual influx of Mexicans from Matamoros to the American side here last Saturday, when the fighting across the international line at Cavazos was at its height, it was learned today, still puzzles some of the authorities. About 500 Mexicans came to Brownsville that day against the normal influx of 300 per day. While many of these Mexicans returned to the other side, not all have been accounted for.

For some time the American authorities have suspected that some of the Mexicans engaged in the bandit raids and in spreading the propaganda of the Plan of San Diego have been coming into this country by passing as Mexicans engaged in ordinary business or travel.

## MOTOR LAND YACHT IS TOURING ACROSS CONTINENT; MOST NOVEL AUTO-EVER BUILT DEFIES BAD ROADS ON LONG TRIP

The motor land yacht.

This house-on-wheels was designed and built by Roland R. Conklin in order to take his family on a land yacht trip from his country estate in Huntington, Long Island, to the Panama-Pacific exposition in California. Every comfort of the party, which started a few days ago on the transcontinental trip, was taken into consideration when the house was built. The auto is the most novel thing of the sort ever built, and was made to travel on the worst roads.
